INTERNATIONAL REBELLION

**AGAINST THE CRIMINAL INACTION ON
THE CLIMATE AND ECOLOGICAL CRISIS**

**We are facing an unprecedented global emergency.
The Government has failed to protect us.**

From 15 April 2019:

Each day thousands of people, young and old, will sit down in the roads of Central London until action on the crisis is taken. *Join us.*

The UN has warned us that if we do not act immediately, there will be global food shortages, mass starvation and social collapse across the world – including the UK.

Carbon emissions must be massively cut.

This is a total emergency. We demand a democracy fit to deal with this crisis.
